

RE: Expansion Project

We are pleased to announce that Adams is expanding its fulfillment and digital operations. Construction will take place over the next couple of months to install a new 5000 square foot mezzanine area over our lettershop production area that will become the center of our fulfillment operations. The steel mezzanine will be supported by 21 columns and will have a Resindex® composite floor. Adams fulfillment operations include hand assembly, pick & pack, premium incentives distribution, kitting, literature fulfillment, weighing / segregating, and packing & shipping. This expansion will also allow us to expand our digital printing operations. Stay tuned for additional upcoming news regarding this expansion and additional equipment upgrades!
