

RE: Canon C7000VP Installation

We are pleased to announce that Adams Addressing has just added a NEW Canon Imagepress C7000VP to our line of digital equipment. It is equipped with a very robust Fiery 3100 rip, high-capacity stacker, integrated booklet maker with in-line face trimmer, 2 and 3 hole puncher and a color high-speed scanner.

This machine is designed to expand our color digital applications in addition to what we can offer on our HP Indigo 5500. The precision registration and consistent color quality, both on a large variety of stocks up to 110 lb cover all combined with the inline finishing capabilities, make this a vital component to your next direct mail campaign.

If you have any questions, please feel free to contact:
